SUMMARY

Final-year ECE undergraduate with strong frontend development experience in React.js, Next.js, TypeScript, and Tailwind CSS, focused on building responsive, interactive user interfaces and integrating REST APIs on the client side. Built three production-style applications covering component architecture, UI performance optimization, and third-party API integration. Seeking an Associate Frontend Developer role.

EDUCATION

Arya College of Engineering and IT, Jaipur, Rajasthan

B.Tech, Electronics and Communication Engineering | CGPA: 8.0/10.0 | Aug 2023 – Aug 2027

PROJECTS

RailGaadi | *Next.js, TypeScript, Tailwind CSS, MapLibre GL, Turf.js, Recharts*

[GitHub](#) | [Live Demo](#)

- Built a real-time train tracking web app with interactive route maps and a live journey analytics dashboard, entirely client-rendered using Next.js and TypeScript
- Consumed and integrated multiple third-party REST APIs (RailRadar, OpenWeather, OpenTopography) on the client side, handling live data updates and geospatial calculations with Turf.js
- Built interactive data visualizations (completion %, distance, delay, station progress) using Recharts
- Deployed and maintained the production build on Netlify

Telemedicine Application | *React.js, Node.js, Express.js, MongoDB, REST APIs*

- Built patient/doctor dashboards and appointment workflows, consuming REST APIs for real-time availability and record data
- Reduced appointment-form re-renders via lazy loading, improving load performance by 50%
- Tested and debugged real-time chat and video consultation UI modules across both dashboards prior to release

Personal Developer Portfolio | *Next.js, React.js, TypeScript, Tailwind CSS, Framer Motion*

[GitHub](#) | [Live Demo](#)

- Designed and built a personal portfolio site with animated transitions and interactive UI using Framer Motion

EXPERIENCE

Data Analytics Intern, Codec Technologies (Remote)

16 June 2026 – 30 July 2026

- Completed a remote data analytics internship, working with Excel, SQL, and Python

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Client-side & APIs: REST APIs, Web APIs, third-party API integration, component architecture

Backend & Databases: Node.js, Express.js, MongoDB, MySQL

Languages: C, C++, Python, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools & Deployment: Git, GitHub, VS Code, Vercel, Netlify

CERTIFICATIONS

- TCS iON Career Edge – Young Professional (June 2025) — communication, interviews, AI fundamentals
- NLP for Developers – Infosys Springboard (Aug 2025) — NLP and text processing

HACKATHONS

- UEM Hackathon Jaipur — Collaborated with a 5-member team, designing the frontend application, to prototype a solution under time constraints
- Hackground India 2K25 — Participated as a solo entrant, building a prototype under time constraints
